MALTRON ERGONOMIC KEYBOARDS

***Reduce wrist pain
when typing.***

Maltron ergonomic keyboards have been designed and built over the past 30 years to enable anyone with special needs to access technology. The Maltron keyboard range featured below can assist those with;

- ✓ Repetitive Strain Injury (RSI)
- ✓ Arthritis
- ✓ Work Related Upper Limb Disorder (WRULD)
- ✓ Cerebral Palsy
- ✓ Limited Hand Use
- ✓ Strokes
- ✓ Paralysis
- ✓ Visual Impairment

Bespoke letter layouts can be made to suit international letter layouts or alternatives to QWERTY such as MALTRON or DVORAK.

Maltron keyboards can also be hired for a trial period for UK residents. Please [contact us](#) for further information.

SINGLE HANDED KEYBOARDS

Maltron single handed keyboards have been developed to meet the needs of those who must perform keyboard operations with one hand.

- ✓ Left and right hand models available
- ✓ Freedom from strain and RSI
- ✓ Improved thumb use
- ✓ USB connector

Dimensions - 30.5 x 22.5 x 11.5cm / 12" x 9" x 4.5"

Right hand version

Left or Right Handed
RRP: £295.00 ex VAT
Code: [K-M\(L/R\)UAIG-UK](#)

DUAL HANDED 3D KEYBOARDS

The original fully ergonomic Maltron keyboard fits the shape of the hands and fingers to reduce tension and movement.

The Dual Handed 3D is available with an optional integral ergonomic trackball mouse.

- ✓ Freedom from strain and RSI
- ✓ Built in palm rests
- ✓ Straight vertical key columns

Dimensions - 43.3 x 21.2 x 9.5cm / 17" x 8.5" x 3.75"

Trackball mouse version

Non Trackball
RRP: £375.00 ex VAT
Code: [K-MDSU90IG](#)

With Trackball
RRP: £435.00 ex VAT
Code: [K-MDTUQ90IG](#)

DUAL-HANDED 2D KEYBOARD

Designed in the traditional keyboard style, this includes most of the features of the 3D models but in a 2D arrangement.

- ✓ Traditional shape
- ✓ Highlighted home rows
- ✓ Low profile

Dimensions - 43 x 22 x 5cm / 17" x 8.5" x 2"

RRP: £295.00 ex VAT
Code: [K-MDFUQ90IG](#)

MALTRON EXPANDED KEYBOARD

Ideally suited for the visual impaired or those with muscular control conditions. The robustly designed Maltron Expanded keyboard has a steel case to withstand heavy use.

- ✓ Built in key guard
- ✓ Large, clear character keys
- ✓ May be operated with fingers or toes
- ✓ Coloured function keys
- ✓ Built in snap-connector
- ✓ Height angle adjustable 15° - 55°
- ✓ USB connector

Dimensions - 62 x 24 x 5cm / 25" x 10" x 2" (7Kg!)

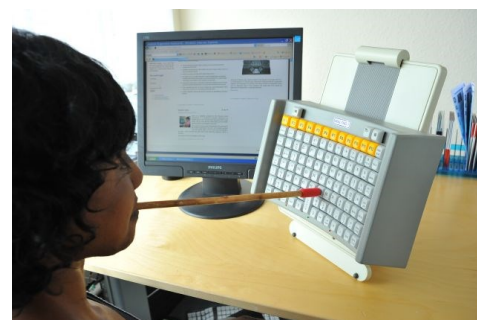

RRP: £545.00 ex VAT
Code: [K-MEPQCIG-UK](#)

MALTRON SINGLE FINGER OR MOUTH HEAD STICK KEYBOARD

Maltron Single Finger or head/mouth stick keyboards have a unique shape and keyboard layout. The shape matches natural head movement and the key arrangement minimises stick or finger activity.

- ✓ Push-on, Push-off keys for SHIFT, CONTROL and ALT
- ✓ Option to avoid key characters repeating themselves
- ✓ Repeat rate settings: off, slow, medium and fast
- ✓ Coloured function keys

Dimensions - 30.5 x 20.5 x 10.5cm / 12" x 8" x 4.1"

RRP: £295.00 ex VAT
Code: [K-MM\(U\)AIG-UK](#)

GOLDTOUCH ERGONOMIC KEYBOARDS

The Goldtouch is an ergonomically engineered split adjustable keyboard to help reduce the risks and effects of RSI. Its two alpha numeric sections may be adjusted both horizontally and vertically. This helps you assume a more natural posture that improved both comfort and productivity. It has a range of 0° to 30° on both the horizontal and vertical planes, and is continuously variable between these two angles. Choose the Goldtouch Keyboard if you type at 35 words per minute or more.

Goldtouch Keyboards are available in Black and also with a USB and PS/2 connection.

RRP: £116.00 ex VAT
Code: [K-GLDKBUSB](#)

Separate Number Pad
RRP: £67.95 ex VAT
Code: [K-GLDNPUSB](#)

Standivarius DUO100 wireless keyboard/mouse set

This slim keyboard has a soft-touch key action with 100-key UK layout including multi-media keys and numeric pad.

The compact design makes it a perfect solution for mobile workers and the compact desk footprint improves working comfort as the mouse can be used more centrally.

The two items slip easily in your laptop bag when travelling and the tiny USB micro receiver fits neatly into the mouse casing and activates a power-save mode when removed from the laptop. The keyboard also features an on/off switch.

The mouse has selectable DPI settings to ensure task-specific response and 2.4 Ghz wireless technology of the set delivers reliable and fast data transmission.

In terms of user comfort the keyboard features full-sized low-noise keys and the tactile mouse suits right and left handed users with low friction glides for precision work.

Dimensions:

Keyboard: 340 x 110 x 20mm.

RRP: £49.95 ex VAT
Code: [K-STAND-DUO](#)

CONTOUR ROLLERMOUSE PRO2

The RollerMouse eliminates reaching for a traditional mouse, relieving neck, shoulder and elbow pain. It allows you to keep your elbows comfortably by your side, which is a more beneficial ergonomic position. No gripping necessary, thus avoiding the threat of Repetitive Strain Injuries such as Carpal Tunnel Syndrome and Tendonitis. Your fingertips roll a narrow bar both up and down and from side to side simultaneously to navigate the cursor over the entire screen, with very little friction or resistance. Your thumbs are free to click left or right. Use your forefinger to click two short cut buttons, "Copy" and "Paste". The RollerMouse fits comfortably under a standard keyboard. Simply move your hands up from the mouse to type.

Features:

- Available in white or black
- Instant copy or paste click buttons
- Reduces threat of RSI
- Fits neatly under a standard keyboard
- No installation, simply plug in and play
- Promotes equal use of both hands
- Keyboard "lifters" to elevate to more convenient height
- USB Only
- PC & MAC compatible
- Dimensions - 20" x 5.5" (50cm x 14cm)

RRP: £179.00 ex VAT
Code: [PPO-CONTOUR\(W/B\)](#)

ORTHOMOUSE - ERGONOMIC & SIZE ADJUSTABLE

The OrthoMouse was conceived and developed specifically to help the body heal and prevent the pain and misery associated with Repetitive Strain Injuries (RSI) resulting from long term repetitive motion in incorrect positions with improper tools.

It is an anatomically correct precision tool, adapted for the complexity of the human hand, rigorously adhering to scientifically proven and worldwide recognized ergonomic and orthopaedic principles.

Adaptable to the size, shape, and function of the average hand with by use of easily exchangeable adapters allowing the user to choose

the best hand fit (small, medium, large) and finger fit (regular or long).

Features:

- Conceived by a medical doctor
- Hands kept in "Position of Function" the only position recognized by Orthopaedic Professionals worldwide.
- Adaptable by size, shape, and function
- Dimensions: 14 x 8.8 x 7 cm
- Weight: 118g

RRP: £85.00 ex VAT
Code: [PPO-ORTHO](#)

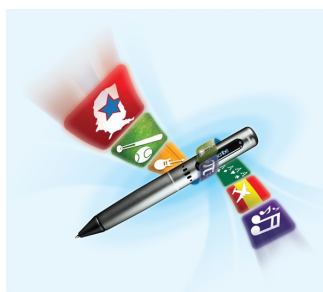

LIVESCRIBE ECHO SMART PENS

Ideal for students and professionals alike!

These smart pens record everything you hear, write and draw using specially designed paper packs. Later, simply tap on your notes to replay the recording so you can find what you need, instantly.

With large storage capacity (e.g. 2GB of memory can hold over 200 hours of audio) LiveScribe pens are a fantastic tool for the work place or in lectures. All recorded notes can equally be saved to a computer.

Do More with Apps!

RRP: £114.00 ex VAT
Code: [ADG-LIVESP2G](#)

OXFORD READING PEN 2

The Reading Pen gives you the independence to read on your own. Scan over a typed word & instantly hear it spoken aloud with built-in speaker (headphones also included). The portable pen is especially designed for people with reading difficulties such as Dyslexia.

The Reading Pen features the Concise Oxford English Dictionary, containing over 240,000 words definitions, and hundreds of new words and phrases. The Pen also now includes a "trainer" which fits onto the end of the Pen and assists with scanning for the first time.

All scanned words are displayed in large font on the screen and read aloud in a clear British sounding voice. At the end of each scanning session you can review the words you had difficulty with as the pen stores the last 80 scanned words.

A touch screen edition, the Oxford Reading Pen TS is also available giving the user the ability to directly enter words into the Pen screen.

Features:

- Reads words aloud
- Concise Oxford English Dictionary with over 240,000 entries
- Scansoft®, British English Real Speak text to speech
- Displays and speaks dictionary definition
- Recognises 6-22 point size text, bold, italic, underlined, inverted text
- Ambidextrous
- Ergonomic & lightweight - 3oz

C-PEN READER/SCANNER

The C-Pen pocket-sized pen reader/scanner is ideal for anyone learning English and is perfect for those who suffer from reading difficulties like dyslexia. The in-built dictionary puts Collins English Dictionary (30th Anniversary Edition Tenth edition) in your hands. Simply pass the nib across a word and it instantly displays the definition and reads it aloud. It is also a scanner for capturing lines of text and uploading to a PC or Mac.

No software is required, just connect the pen up to a computer with a USB cable and it appears as an external hard drive.

Other features include:

A built-in voice recorder with playback, High accuracy OCR that enables you to capture and save a word, paragraph, or full pages instantly as a standard transferrable text file, Text to speech: Use the C-Pen to read printed text for you in a high quality naturally speaking British English voice. Use it to listen to pronunciations or just to help you read, High quality electronic dictionary with word memory.

The C-Pen also features a microphone, speaker and headphones connector allowing you to record audio files.

Interfaces: Standard micro USB connector for charging and connecting to computers, and a standard 3.5mm connector for headphones.

A Class pack of 10 units in a robust carry case is available.

WIZCOM EXAM PEN

The very popular Exam Pen has been approved by The Joint Council for Qualifications (JCQ) for use in exams. This means students who have reading difficulties such as dyslexia can independently take exams knowing that they can read and understand the questions.

Features:

- Instantly displays scanned words on the screen
- Instantly says the word or line of text aloud
- Headphones provide discreet audio to the student, whilst not disturbing other students
- No dictionary or storage function
- Students using the ExamPen can be housed in the main exam hall as they are not disturbing other students
- No need to book human readers to assist students.
- Battery operated so there are no cables
- Due to it's size it is easy to store securely and transport between exam halls
- The ExamPen is brightly coloured in orange and clearly states "ExamPen" on the screen making it obvious to invigilators that this is an approved device
- The ability to read independently gives the student a sense of confidence.

Box content:

- ExamPen
- Protective carrying case
- Earphones
- User Manual
- 2 AAA 1.5V batteries

RRP: £104.00 ex VAT

Code: [AO-RDEXAM](#)

Exam Pen Class Pack

RRP: £1149.00 ex VAT

Code: [AO-EXAMCP](#)

C-PEN EXAM READING/SCANNING PEN

The C-Pen Exam pocket-sized pen reader/scanner is exactly the same as the Reader / Scanner pen and has been approved by The Joint Council for Qualifications (JCQ) for use in exams. This means students who have reading difficulties such as dyslexia can independently take exams knowing that they can read and understand the questions. No special access arrangements required.

JCQ Statement:

"The arrangement 'Read Aloud' would also include the use of an examination reading pen. A permitted examination reading pen will not have an in-built dictionary or thesaurus, or a data storage facility. An approved application for a computer reader would also allow the use of an examination reading pen."

Use it to read printed text in a high quality naturally speaking British English voice. The C-Pen Exam Reader also features a microphone, speaker and headphones connector allowing you to record audio files.

Interfaces: Standard micro USB Connector for charging and connecting to computers, and a standard 3.5mm connector for

SPRINT PLUS

Are you a teacher helping a young person with Dyslexia?

SprintPlus

Use SprintPlus on your Windows PC or laptop to support literacy +development & making text accessible for all.

Use with the student to develop stronger reading and spelling skills:

- Read out text by word, sentence, or phonetically using coloured text to show what is being read out
- Homophone detection
- Phonetic word prediction e.g. Photograph, not Fotograph
- Highlight text with different colours and summarise function
- Produce MP3 recordings of vocab lists in English and a second language
- Auto language detection when scanning text into a PDF for reading out

Use Sprint Plus as an 'add-on' to Microsoft Word to:

- Do your own personal proof reading - Read out all written text using a natural voice and coloured text to show what is being read out
- Use the right homophones with the homophone checker
- Improve reading comprehension - Highlight text with different coloured markers and use the summarise tool
- Use word prediction with phonetic support e.g. type 'Fotograph' but predicts 'Photograph'
- Access materials in PDF
- Annotate materials and send changes back to the pupil.

WORD Q and SPEAK Q

You want to write. The last thing you need is distractions.

The functions included with WordQ are specifically designed to be simple and practically invisible so you can focus on writing and speaking what's on your mind. By turning the Words button on or off, you can have constant additional help while you write. It helps with spelling and word variety and offers assistive with every letter you type. Or, if you prefer, you can just turn it on when you are stuck on a word.

SpeakQ v4 is an optional add-on which gives speech to text voice recognition functionality.

There are also versions for Google Chrome, legal and medical environments. Windows and Mac compatible.

CLAROREAD 7 PC & CLAROREAD 6 MAC

ClaroRead®

Software for Reading
and Writing support.

ClaroRead is a highly effective multi-sensory software solution for supporting individuals who struggle with reading and writing. Designed with maximum simplicity, adaptability and flexibility, users of any age and level of ability will have a world of information unlocked through ClaroRead.

As ClaroRead is closely integrated with Microsoft Word and Internet Explorer, practically any text can be spoken aloud by this powerful software. ClaroRead can assist in delivering high quality documents through using the "proofreading" capability.

Users can also benefit from the addition of included visual tools that colour, highlight and focus on difficult to read text as it is spoken by the computer. Words can also be spoken back as they are typed, ensuring the accuracy of written papers, tests, and study notes.

There are many other products within the Claro 'family'. Do call if you cannot find what you are interested in doing or teaching.

TV-EYE MAGNIFIER / CCTV

When magnifying glasses no longer help and other electronic magnification systems are too expensive and too large then consider the TV-EYE.

It doesn't look like a visual aid, the discrete shape fits aesthetically into any room and will sit unseen next to your television. Unfold it when you need it and fold it away when you've finished.

Use it for reading and writing, it's so simple to use. The TV-Eye displays colour images as well as greyscale, enhanced black on white and white on black.

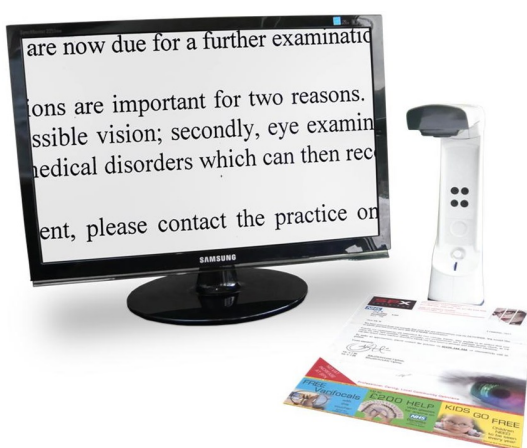

Magnification is in 6-steps from 4x to 12x and is equipped with its own in-built adjustable illumination.

The TV-Eye plugs into your television via the AV or SCART socket. There is nothing complicated in setting it up.

The clever SCART connection automatically recognises the magnifier when it is switched on and reverts back to your program when it is switched off.

JAWS FOR WINDOWS

JAWS for Windows is a powerful accessibility solution that reads information on your screen using synthesized speech. JAWS provides many useful commands that make it easier to use programs, edit documents, and read Web pages. With a refreshable braille display, JAWS can also provide braille output in addition to, or instead of, speech.

An array of versatile features and customizable options lets you tailor JAWS for your individual needs and preferences.

JAWS for Windows is particularly suited to those with more severe visual impairments or with a lack of vision.

JAWS Home is for home use and will only work on home version operating systems.

JAWS Professional is designed for use in a business environment and supports many popular business applications. Please call us for details.

JAWS Premium gives you technical support for two years and the next two product launches.

All JAWS Standard products can be used with all 32-bit or 64-bit Home, Home Basic, and Home Premium versions of Windows 8, Windows 7, and XP.

The JAWS Standard Software Maintenance Agreement entitles you to receive the next two paid-for upgrades for a cost of £200 ex VAT.

DRAGON NATURALLY SPEAKING 13 / 15 (PC)

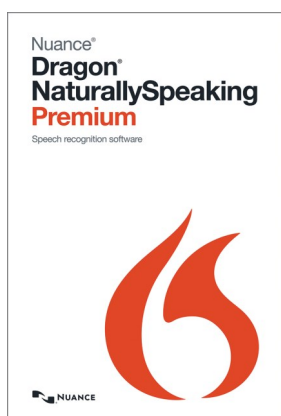

Dragon NaturallySpeaking is the leading dictation software available on the market today. Voice recognition software bypasses the need to use a keyboard or mouse. Anything you say will instantly be turned into editable text on screen, three times faster than typing and up to 99% accuracy rate.

Use your own voice to perform many things you would normally do with a mouse and keyboard. This is ideal for those wishing to type faster and those who struggle to turn ideas into written text or equally for those who are unable to use a keyboard.

Details on Education licences and the new features of version 15 are available on our website.

Supported Operating Systems:

- Microsoft Windows 7 and higher, 32-bit and 64-bit
- Microsoft Windows XP SP3, 32-bit only
- Windows Server 2008 SP1, SP2 and R2, 32-bit and 64-bit

DRAGON FOR MAC 6.0 (FOR MAC)

With Dragon for Mac 6 speech recognition software, you can use your voice to create and edit text or interact with your favourite Mac applications.

Far more than just speech-to-text, Dragon lets you create and edit documents, manage email, surf the Web, update social networks and more – quickly, easily and accurately, all by voice.

Open and close or navigate between applications or even create your own custom voice commands to execute multiple steps with a simple word or phrase.

Use your iPhone or iPod as a wireless microphone or capture your notes on the go using a digital voice recorder and Dragon 6 will transcribe them for you.

DRAGON SITE LICENCES FOR EDUCATION

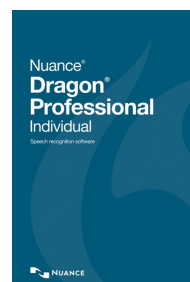

From as little as £8.95 per unit, Dragon licences offer a highly affordable way of introducing students and staff members to the benefits of voice recognition software.

These are machine install licences (i.e. 25 Licence, 25 machines) with the ability to add unlimited user profiles allowing your entire student and staff population unlimited access to Dragon. Users simply select their profile from a drop down list to ensure they can access their own personal settings and preferences.

It is recommend that you ensure your IT infrastructure meets the minimum system requirements of Dragon NaturallySpeaking prior to installation.

NB: Headsets are not supplied as standard.

NB: The full range of optional annual maintenance (Support) & Upgrades are available; please contact.

| Platform | Licence Type | Institution Type | RRP ex VAT | Order Code |

ASSISTIVE TECHNOLOGY TRAINING

We have over 15 years experience in meeting the demands of students via the DSA and employees mainly via the Access To Work scheme. Our DBS certified and qualified trainers are well able to make a substantial difference to the users effectiveness.

Training takes place mainly on a one-to-one basis or in a small group in a wide variety of locations including the client's work space or our training facility in Stafford.

- We train on ALL the products we supply be they software or hardware and take full account of the client's needs and aspirations as well as their difficulties in learning, visual perception or physical disabilities.
- Our trainers always start where the client's needs are and progresses at the client's speed.
- Appointments are normally for 3 hours duration but this can be changed to suit the client's energy levels etc. Accordingly, training on several software products could be provided during the same session.

Please [contact us](#) to check our competence and experience.

DRAGON & READ & WRITE - Over the years we have particular expertise in being able to train clients to ensure that the full benefits of Dragon and Read and Write are achieved.

Additional training is offered for Scripting on the Professional version of Dragon or Dragon for Mac. This allows the user to create/use specific voice activated short cut codes and specific scripts for their own business software. Please [contact us](#) to speak with one of our trainers!

DYSLEXIA COPING STRATEGY TRAINING , AWARENESS TRAINING & CONSULTANCY

Working directly or through the Access To Work scheme (where all strategy costs are provided free of charge), our Coping Strategy services are designed to meet two needs;

For Clients – To bridge the gap between the understanding of what, for example, dyslexia software does and the too often unfulfilled need to identify and implement the necessary holistic work place improvements. Working with clients on a one-to-one basis, we aim, with local management support, to increase the effectiveness of the employee so that they grow in confidence, participation and exhibit a more positive attitude!

For Management – We provide 'Awareness Sessions to provide a detailed understanding of the issues that affect dyslexic / dyspraxic employees and the steps

Please [contact us](#) for specific costs according to distance,

Testimony from an Outdoor Education Training Centre

"Having been a manager for nearly 20 years juggling the demands of the job, the steps we have taken to streamline and make more efficient my processes, focusing on mitigating my dyslexia have been revolutionary".

Please see our web site for many more testimonials

Enabling Technology Ltd (ETL) Terms of Business and Conditions of Sale

1. Placing Your Order

Your order can be placed by telephone, fax, by e-mail or by post. Orders are accepted and governed by the following terms and conditions. No other terms and conditions except those implied by English Law shall be of any effect unless the same are expressly agreed to in writing.

2. How to Pay

Private individuals or organisations without an account with ETL are required submit payment on placement of order. This is to be received prior to any scheduling or any work being carried out by ETL. Payments can be by cheque, made payable to Enabling Technology and Training Network, or by credit/debit card by notifying us of your card details.

Official orders from local government, education and health authorities, limited companies or organisations that ETL has traded, are invoiced on terms of net 30 days, or as agreed in writing. If payment is not received within this timescale then ETL reserves the right to charge interest at 3% above base rate.

3. VAT Exemption

Many items in our catalogue are designed for disabled persons who may qualify for VAT exemption. Call for an ETL VAT Exemption Form which should accompany your order.

A form is available to download from www.enablingtechnology.co.uk/VAT_Exempt.pdf

4. Pricing

Catalogues, product sheets and product price lists are guide prices only and subject to additional charges such as delivery, carriage, insurance and installation. If there is any variation in the price or specification prior to delivery we will inform you of these changes. Quoted prices are exclusive of VAT, which is payable by the Buyer, unless eligible for exemption.

5. Delivery Timescale

ETL will endeavour to meet / exceed our estimated delivery dates. Any delay or condition beyond our control will be notified. ETL may deliver by instalments and each delivery is deemed a separate contract until ETL deem the order is fulfilled.

6. Installation and Delivery Arrangements

ETL will endeavour to confirm arrangements for installation or site visit. If confirmation is made and the Buyer cannot take delivery, then ETL may charge for any costs incurred at the current rate at that time. If ETL cannot confirm arrangements this may cause ETL to postpone delivery. ETL are not liable for any damages or penalty for delay in despatch or delivery. On delivery, the user should arrange insurance of the equipment and is responsible for taking adequate backup and security measures of the system.

7. Training Cancellation Policy

If your appointment is cancelled by you with less than 72 hours' notice, or if you do not attend, then the company reserves the right to invoice for the full cost of the training session. Please note that this will affect subsequent training sessions that you may have been allocated.

8. Title

Title to Goods remains with ETL until all monies owed by the Buyer has been received. ETL has the right to repossess or recover any Goods if payment is not made in full or on time.

9. Returns Policy

In the first instance, call ETL to discuss returning any Goods. Returning a faulty item, call ETL for authorisation and obtain a fault log number. The return of unwanted or inappropriate items must be returned to ETL via an insured courier within 5 days of original delivery. Returned items must be in brand new condition, (sealed) re-boxed in original packaging and are subject to a re-stocking fee of up to £35, which will be deducted off your re-fund. **Computer software cannot be returned if it has been unsealed.**

10. Claims

Shortages or damages must be notified within 3 days of delivery. The Buyer is responsible for all actions taken and in the usage of the Goods in accordance with ETL or the manufacturer's operating instructions. ETL do not accept any responsibility for inappropriate use of the software or equipment or errors made by the Buyer. ETL do not accept any liability for items connected to or loaded onto the system by the Buyer, even if this creates a malfunction with already supplied software and hardware. It is the Buyers responsibility to perform periodic backups of their system for security purposes.

11. Software Licences

ETL will pass on all copies of the manufacturer's terms and conditions of licences attached to the Goods supplied. ETL bears no responsibility for the terms and conditions attached to those licences. Any software systems and documentation supplied by ETL are protected by copyright laws and the Buyer, as a user of the software, has certain rights under copyright. Documentation supplied by ETL may not be copied without written authority. Failure by the Buyer to adhere to the terms and conditions of any licence could invalidate any claim made to the Seller under any warranty and could in exceptional circumstances result in criminal proceedings.

12. Your Guarantee

All Goods supplied by ETL are guaranteed by the original equipment or software manufacturer only and for the period specified. ETL will provide any and all copies of those guarantees. Unless otherwise stated, this is on a Return-to-Manufacturer basis. If the Buyer fails to adhere to the terms and conditions of usage, this will invalidate any claim made against ETL.

13. Warranty Maintenance Cover and System Support

In the event of a failure, ETL will attempt to minimise the loss of functionality of the system to the Buyer, by offering telephone liaison to the Buyer or Carer. Beyond this however, equipment maintenance, on-site visits, re-configuration work, updates or software-installation is subject to additional fees, except for separate agreed contract term exists.

ETL will provide telephone assistance to "trained users" for a period of 12 months following any training session undertaken by our trainers.

Alternatively, an ETL Support Contract can be purchased by the Buyer for the maintenance of equipment and support of ETL supplied software. The support contract is renewed yearly and optional levels of cover may be selected by the Buyer. ETL will prepare a schedule of options to be covered by the Support Contract and this will be the basis of our support.

14. Exclusions of Liability

Except where provided otherwise in these conditions the company shall be under no liability of any kind however caused whether or not due to the negligence or wilful default of ETL, its servants or agents arising out of or in connection with the Goods or Services. The company shall not be liable for the loss or damage to software programs during repair or upgrade of any Goods whether or not the same are under warranty.
